Subject Task Order 840 Extension Request

Hi Barbara,

For Task Order 840, Libby Ambient Air Monitoring: I need to formally request an extension of the current period performance ending November 30, 2008 to be extended to February 28, 2009.

Justification: The draft report was just recently reviewed by the EPA Libby Team. There are a number of comments that need to be resolved prior to finalizing the report. I also want to allow the Libby Technical Advisory Group to have an opportunity to review the draft report once we resolve our comments within the Libby Team.

Thank you so much for your help.

Regards,

Kathleen Atencio
